A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend certain by decreasing the premium.

By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds will be invested to develop the resources of his own country and locality.

Testimonials.

We, the undersigned Physicians, practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Langwerrt, Practical Chemist, of the Napa Soda Springs of Napa. The water, according to this examination, possesses apparent antacid and ine properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and affording a pleasant, healthful and invigorating beverage.

Daily British Colonist.

THURSDAY MORNING, AUG. 7TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

A Little Plain Talk.

In the Spring of 1870, British Columbia, having ripened for Confederation, sent three delegates to Ottawa for the purpose of arranging a basis of Union. They returned with the Terms upon which the Dominion Government engaged to seek the consent of Parliament to the admission of British Columbia. These Terms were accepted on the part of this Province almost unanimously, by a House the popular element in which was fresh from the hustings. The sanction of the Dominion Parliament was obtained by a hard struggle. On the 20th day of July 1871 British Columbia was, by the Queen's Proclamation, formally admitted into the Dominion. Article eleven of the Terms or Treaty of Union contains the following provision:—

"The Government of the Dominion undertake to secure the commencement simultaneously, within two years from the date of Union, of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains, towards the Pacific, to connect the seaboard of British Columbia with the railway system of Canada; and further, to secure the completion of such railway within ten years from the date of the Union."

It is with this article in the Treaty, and more particularly the first part of it, that we propose to deal. That the railway constituted, in the estimation of British Columbia at least, the 'summum bonum' of Confederation will be admitted on all hands. If we refer to the "Resolutions" which our delegates carried to Ottawa as the basis of negotiations, we find the Legislature of British Columbia solemnly declaring (Vide Section 8) that "no real Union can subsist between this Colony and Canada without the speedy establishment of communication across the Rocky Mountains," etc., etc. In truth, to British Columbia the railway condition was the body and soul, so to speak, of Confederation. Beside it all the other conditions were as mere fringes,—intrinsically important, yet comparatively trifling. It is about this all-important, this overshadowing condition of Union that we now desire to have a little plain talk. The two years of the Treaty expired on the 20th of last month, and yet the work of construction has not been commenced! It is true that a critical or location survey was begun on the 17th ult., and it has been stated that high authority holds that to have been a legal fulfilment of the technical conditions. But even that kind of "construction" ceased at the end of a day or two. Whatever publicists may say on the subject, whatever conclusions forensic acumen may reach, all we have to say is that, as a party to the Treaty, British Columbia meant and understood a substantial 'bona fide' commencement of the work of actual construction; and to have offered the empty mockery enacted in the name of the Treaty, on the 17th ult. seems to have been little better than adding insult to injury. Until it is known what share the Federal authorities had in that ill-timed farce, it would be unfair to hold them responsible for the whole of it. If, as we are led to believe, the occasion was indebted to local politicians for all that was ceremonial and demonstrative about it—if, as there is reason to believe, the Federal instructions were, pure and simple, to begin a location survey at Esquimalt, and all the rest of the silly farce about driving the first stake, etc., was got up by local Ministers to serve their own selfish ends, it would, of course, be unfair to saddle the Federal Government with that. But even here we must not lose sight of the one great fact, that there has been no "bona fide" "commencement" of the work; and for that the Dominion Government can alone be held responsible. To British Columbia this is, indeed, a momentous consideration. It means hope crushed, confidence destroyed, enterprise and industry paralyzed. What is to be done? British Columbia must stand up like a man and insist upon the faithful fulfilment of the Treaty obligations, and more especially this particular one, on the part of the Dominion. Whatever party may be in power, we have a right to do that. Whatever mistakes may have been made, whatever influences may have been employed in connection with railway negotiations, our duty is clear,—we must insist upon our rights, and most of all, upon the greatest of them, the railway. Here both representatives and represented must take a firm stand, nor yield one jot; for if the railway goes, all goes. Let others wrangle about the *modus operandi*, if they will. *We want the railway, and the railway we must have!* It is no longer a question of men or of party. It is not even a question of Terminus now. "To be or not to be,—that's the question." Let British Columbia be true to herself and demand the faithful fulfilment of the Bond. She has fulfiled her part of it to the very letter. Rising above all party and local issues, let her insist, respectfully but firmly, upon a faithful fulfilment of the Treaty obligations on the part of the Dominion. In doing this she will at once be true to herself and to the Empire.

The Agrarian Outrage.

As was to have been expected, the egregious blunder committed by the blundering Ministry in regard to the public lands in the District of New Westminster has raised a perfect storm on the banks of the Fraser. Popular indignation grows apace, as the true character and full import of the outrage come to be understood. The Government organ there earnestly declares that its article was altogether misconstrued by the organ-in-chief,—that it had no intention whatever of defending, much less approving, the policy of its masters. This it evidently does in sheer self-defence against the angry tide of popular indignation which threatens to engulf it. The *Mainland Guardian* lets the Ministry have it right and left. After pointing out the unjustifiable and pernicious nature of the course pursued by the Government in this matter, it says:—

"The first step to be taken must be to get up a monster petition to the Lieut-Governor to stop the sale, and if that does not produce the required effect, let the Ministry be impeached.....The sale of the public lands in New Westminster District, will, we suspect, prove the last straw that breaks the back of the people's endurance, and we shall be startled some day by such an unmistakable expression of their disgust with the present government, that nothing can resist."

Letters received on the subject from several parts of the district fully bear out the very pronounced terms in which the *Guardian* condemns the course that is being pursued. Indeed, how could it well be otherwise? Of all the communities, perhaps that on the Lower Fraser was the least likely to submit tamely to such extraordinary treatment. Was ever Government so gifted with the faculty of doing little, and doing that little wrong?

The Council met at 8 o'clock last evening, His Worship the Mayor presiding.

COMMUNICATIONS.

From E. C. McCormack complaining of a malicious summons before the Police Court and praying for the protection of the Council. Received and filed.

From Messrs. Drake, McQuade, Gray, Keast, Sutro and others, petitioning for the laying of a sidewalk on Cormorant street. Referred to Street Committee.

From B. W. Pearse, Dominion Engineer, with respect to sidewalk obstructions, stating that he had no authority over Mr. Foster, the Government contractor, and that the work will recommence on the 15th inst.

From R. Foster in reference to the obstructions, stating that the work on the Government buildings was stopped by Mr. Pearse, and that he should only obey Mr. Pearse's instructions.

Coun. Gowen moved that Mr. Pearse be written to to instruct Mr. Foster to open up the communication on Government street forthwith. Carried.

From A. Jones, Cleveland, Ohio, asking for information for intending settlers about the country, its openings for business, markets, agricultural resources, &c. As a number of settlers now in Ohio are desirous of living under the British Flag, the answer will affect their immigration into this Province.

His Worship thought it would be advisable to send petitioner a paper containing the advertisement of the Government land sale at New Westminster.

It was decided to send petitioner an Essay.

FINANCE.

Thos. Craigie, $11; G. Huston, $5; M. Richardson, $38 50; F.F.D., $49 75; Jno Dickson, $9; Hayward & Jenkinson, $7; Jno Stephens, $2; E B. Marvin, $5; L. Hamilton, $11; R Turner, $11; R Downs $5; Thos. Hicks, $11. These bills were referred to Finance Committee.

POUNDKEEPER'S REPORT

For the past month showed the receipt of $75 50 for fees, etc. Received and filed.

KEEP OF PRISONERS.

The Government account received at last meeting came up for discussion.

Coun. Drummond did not think it was right to refer the question to the Finance Committee alone. It should be discussed by the Council in full session.

His Worship thought it was the duty of the Council to pay for the keep of prisoners.

Coun. Drummond thought the Council had nothing to do with extradited prisoners. That was a question for the Provincial Government to see to. It was a matter of $68 to the Council.

Paid over for Finance Committee to take further consideration of the matter.

REAL ESTATE BY-LAW

passed its first reading.

IMMIGRATION.

Coun. Drummond proposed to forward to Mr. Jones both the Government Essay and the Immigration pamphlet. Carried

Council then went into committee of the whole on the appeals of Real Estate Tax.

PAINFUL SENSATION.—The rumor of the attempt of Sir John Macdonald at self-destruction caused a very painful sensation in this community; but after the first shock, incredulity took the place of painful surprise, and the report has few believers. We are all aware that Sir John has been much harrassed lately by the attacks upon his character by the Opposition; but none who know the Premier will believe for a moment that he has allowed himself to be goaded to madness—at a time, too, when it is claimed that he has a good defence.

IS THE GOVERNMENT HARD UP?—We hear that a number of small accounts against the Board of Education for labor done for and goods supplied to the Victoria City Schools remain unpaid although some have been due six or seven months. In one case, at least, the Victoria School Trustees have paid a bill, contracted in January (nearly six months since) out of their own pockets, rather than undergo the process of dunning. This contempt of small accounts—whether it lies with the Board of Education or the Government—is simply disgraceful.

THE diamond region of South Africa has been erected into a separate colony of Great Britain under the name of Griqualand West. Its extent is 17,800 square miles. About 40,000 persons are hunting for diamonds, of which $5,000,000 were dug out last year. The diggings have been well turned over and people are diverting their attention to agrichlture and to developing the mineral resources of iron, copper and coal.

POLICE COURT.—Jenny, a Nootka Indian woman, was charged before Mr. Elliott yesterday with having stolen $100 in gold 20s from a man named Buston. The man fell asleep in the woman's house with $350 in his pockets, from which she took the amount stated. Ninety dollars was recovered, having been hid beneath the doorstep by Jenny. She was sent to gaol for 14 days

THE BALL.—H.M.S. Repulse will be thronged this evening with guests from the city. Nearly every conveyance has been engaged to convey guests to Foster's Pier, where boats will be in readiness at 7:45 o'clock to take them on board the flagship. The fine band of the Repulse will play during the evening.

GAME LAWS—Young grouse are being slaughtered mercilessly in this and and the neighborhood of Esquimalt. The new game law forbids the killing of grouse before the 1st of September. Why is it not enforced?

The Pacific Delegation.

The *Mainland Guardian's* "Planetus," writing on the 15th ult, says:

"Of course Amor DeCosmos dared not vote against the government of John A. Macdonald no matter what that government should attempt in the way of legislation. True he was conceited and shallow enough to differ from them occasionally, but when it came to a vote, Amor swallowed his conceit and his pompious independence and voted opposite to his declarations. Mr. Dewdney more sensibly never opened his mouth, and true to his engagements, though not to his convictions, voted *straight* for the government. Mr Nathan, child-like and bland, always voted, moved and acted under the shadow of the great leader or Sir Francis Hincks, both of whom too care of the *God of Love*. Mr. Nelson of course voted according to his engagements, having left his convictions at a very inconvenient distance away. What is the inference? Simply that the people of British Columbia have paid too high for their whistle—not in money it may be, but in conscience, if there is such a thing left in the world. It was given out some time ago that no other Government would build the railway—that the existence of the Macdonald Administration was the safety of the Canada Pacific Railway. I have been here long enough to know that this is all bosh. As a united whole the people of Eastern Canada are in favor of the road; and though for a long time I was led, as were many others, to believe that the Grits were opposed to the road, I find that there is no such feeling. There may be differences as to the route and details; and of course there is very grave objection to the way in which the charter has been granted, and the circumstances surrounding it; but I am quite satisfied there are strong objections urged against the policy which has so far played the very mischief with the whole scheme, and will most likely postpone its completion another decade. It is a great pity a man like DeCosmos should be allowed to play the confidence game over your people by sending them telegrams about the Canadian Pacific Railway which he himself manufactured out of whole cloth. Such shallow artifices as these to make people believe he is working hard for their interests are easily seen through."

Lower Fraser.

Mr. R. C. Coleman, late of Comox, but for some time resident at Burrard Inlet, was drowned near Hastings Mill, on Tuesday evening while bathing. The body was found floating, face downwards, in about five feet of water, near the beach. An inquest was held by Coote M. Chambers, Esq., Coroner, and the verdict of the jury was that Robert Cameron Coleman came to his death by being accidentally drowned while bathing. The remains were conveyed to New Westminster and interred on Sunday with Masonic ceremonies.

The New Westminster public school was re-opened on Monday. Miss Glyde, the retiring teacher of the girls department, was presented with an address, accompanied by articles of value.

On Saturday last the handsome little steamer built by M. J. Rodgers, Burrard Inlet, was successfully launched. As the little craft glided into the water, Miss Maggie Rodgers, eldest daughter of the proprietor, broke a bottle of wine over the bow, naming her the "Maggie Rodgers." This is said to be the first vessel built at the Inlet, and the first under the Dominion flag on the Pacific.

H. V. Edmonds, Esq., has resigned his position as Clerk of New Westminster City Council,—a position he has held for many years with much credit.

The *Mainland Guardian* says the Chilliwhack settlement is becoming a favorite locality for new settlers, and quite a number went up by the last boat. There are several families expected out to go up there also.

A number of new settlers have, within the last few days, taken up pre-emptions in the district; but they complain that the good land which they desired to locate is included in the government auction scheme.

DENTISTRY.—Dr. T. J. Mills Bowden having retired from the practice of his profession in consequence of ill health, will be succeeded by Dr. R. B. Thompson. Dr. Thompson is most favorably recommended from Canada, and although but a short time amongst us has given evidence of high professional ability. The rooms are as before, on Langley street.

CAPSIZED.—An officer belonging to H. M.S. Repulse, while out in a canoe yesterday was capsized in Esquimalt harbor and barely escaped drowning. He was rescued in an exhausted state by a ship's boat.

NAVAL INSPECTION.—Vice Admiral Hillyar yesterday visited and inspected H.M. S. Tenedos and expressed himself highly pleased with the condition of the ship, etc. The guns heard yesterday were fired by the Tenedos during the inspection.

THE RESTAURANTS.—Of the ten restaurants in this city all are reaping a rich harvest from the patronage of the "liberty men." The men, generally, are highly spoken of as civil and well behaved.

PRECAUTIONARY.—In view of the large number of visitors to the war ships it is suggested that the boats plying for hire in Esquimalt harbor should be overhauled and their seaworthiness demonstrated.

UPSET.—A buggy in which were seated three gentlemen was capsized at Esquimalt yesterday morning and one of the occupants was severely cut on the face.

THE sale of the furniture of Captain Delacombe, R M L.I., will take place today at the rooms corner of Fort and Langley streets.

WILLIAMS' Bus will leave the Colonial at *eight* instead of *seven* o'clock this evening for Esquimalt.

CRAIGFLOWER.—Rev. Mr. Jenns will preach at Craigflower on next Sabbath afternoon at 2½ o'clock.

LIBERTY MEN.—A large number of men will come ashore from H. M. S. Repulse to-day.

THE steamship California leaves Portland on Saturday next for Victoria and Puget Sound ports.

The steamship Gussie Telfair has gone on to Sitka.

THE U, S. steamer Lincoln will sail for the North this afternoon.

THE steamer Enterprise, Capt. McNeil, arrived yesterday with the Mails, Barnard's Express and the following passengers:—Hons DeCosmos and Walkem, Mrs Heisterman, H. Nelson, W. Dalby, and Messrs. Meldrum, Dorman, Wilson, L. Smith, Ferris, Duchemin, Bailey, Bigelow, Young, Baker.

ITEMS IN BRIEF.—There are about ten men engaged in carpentering on the Enterprise and Otter....The Gussie Telfair has gone to Sitka....The Sir James Douglas is due from Nanaimo to-day....The omnibus "Young America" was kept running yesterday in the interest of the Fleet.

FIRE.—The moulding shop of Spratt's Albion Foundry was partially destroyed by fire at one o'clock this morning. The loss in moulds and building is heavy. Tigers threw first water.

H.M.S. MYRMIDON.—There was a party on board this ship last evening. The Myrmidon was gaily decorated in honor of the guests.

LAST NIGHT'S DISPATCHES.

Eastern States.

NEW YORK, August 5.—The Standard oil works near the Long Island R. R. depot, Hunter's Point, are now on fire and burning fiercely.

A grand reception concert and ball will be given at the Ocean House, Long Branch, next Saturday evening for the benefit of Portland (Oregon) sufferers. President Grant, who was a resident of Portland, will be present.

BOSTON, August 5.—Special from Montreal, Canada, says a rumour is current Sunday and to-day that Sir John A. Macdonald attempted suicide. The Government organs deny the story; it is certain, however, that the Premier is in a low state.

Mr. Bowlby jr. (?) figures to-day in connection with the Pacific Railroad scandal. In letters over his signature in the New York 'Herald' he circumstantially and minutely relates that for securing $100,000 from Americans for the use of the Government. He goes into the particulars of his interviews with ministers and shows their willingness to take and make money from who they could so long as it would enable them to retain power. He asks "who are fifty thousand now and who are fifty thousand again," and says "I have had about three months correspondence both by letters and by personal interviews of selling the Pacific Railway Loan. He gives the following extract from one of the Ministry:—The 'Telegraph' is trying to turn the concern into a joint stock. I hope we will succeed. It will be an entering wedge and new capital will consolidate the concern. [The above despatch is very confused.—ED. COLONIST.]

NEW YORK, August 5—At 2 o'clock this afternoon two tank-boats lying opposite the Long Island City Oil Works exploded. In three minutes the fire communicated to material stored in the yards and three square blocks were enveloped in flames. The intense heat would not admit of firemen approaching within a block and a half of the scene, while the thick smoke was suffocating at a greater distance. The captain of the boats and a number of others were killed. Long Island City Oil Works, Standard Oil Works, Lowenstein's Varnish Factory, and many other buildings are destroyed.

A bill of exceptions will be presented and a new trial demanded in the Walworth case.

Some members of the Grand Army of the Republic in this city compelled a saloon keeper to take down a German flag which was flying over an American flag and reverse their positions.

Germans captured two insurgent frigates in waters of Malaga.

Turning in on the right at Elk Lake there is a road which leads to the spot. We would advise the public to take their tents and judge for themselves. * *

An Interview with Sir Hugh Allan—The Railway Terminus.

The New York "Herald" has sent a special correspondent to Montreal to interview Sir Hugh Allan, and here is the result of it:—

WILL THE PACIFIC RAILROAD BE BUILT?

Considering that the highest authority on this point could be none other than the man who bought the commission to build it, and who had lately returned from London, where he had applied for help in the form of a European Syndicate to provide capital, I called on Sir Hugh Allan and propounded the conundrum. The sexegenarian seemed pleased to learn that the "Herald" took an interest in his little games, and became very affable. He said that the "road would be built if the money could be raised."

"What is the prospect of 'raising the wind?'" I inquired.

This came very near being a poser, I fear, for Sir Hugh replied rather evasively to the effect that the prospect was not wholly bad. I had not the heart to ask why it should be at all bad, for I was afraid that it would bring to mind the little disagreement existing between himself and his former friend McMullen, so I charged in a different direction.

"Where will the line begin if it ever begins?" I queried.

"At Lake Nipissing," he answered.

"And where will it end—at New Westminster?"

"Oh, no, not at New Westminster."

"Where then?"

"That is quite undetermined. The surveys will have to be made on the Pacific coast before we can decide where to strike a port."

"Will the work be completed in the time specified?"

"Well, hardly. It will require fully ten years, and two have already expired."

"Is it intended to adhere to the original route, running north of Lake Superior and keeping within British Territory?"

"The law says that we must," answered Sir Hugh.

"Are you confident, Sir Hugh, that the proposed route is to be preferred to those opened or under way in the United States?"

"Most assuredly," he responded. "The climate is more favorable in winter through the valley of the Saskatchewan to British Columbia, and our surveys have revealed a passage over the Rocky Mountains at altitudes less than one-half the heights scaled by the present Pacific roads."

UNROLLING SOME MAPS,

he tracked the line to its indefinite terminus opposite Japan, and showed the comparative gradients of the Union and Central and the Canadian Pacific avenues between the oceans. The advantages were wholly with the former route, which, I could not help remarking, is fortunate for the predestined stockholders.

The remainder of the interview was occupied in discussing the practicability of shortening the mail and passenger transportation between New York and London. Sir Hugh impressed me as being a man who is getting "too many irons in the fire," considering his age, for he cannot be less than sixty-five. To run thirty-two ocean steamers and to be the presiding officer in banking institutions and telegraph companies and head manipulator in some half a dozen proposed local railroads ought to furnish employment for one person. But Sir Hugh evidently thinks that the Pacific scheme can be straightened out without much extra effort. He must think this, or he would not have squandered $400,000 for the privilege of owning the charter to build it.

A Russian Prince Sentenced for Cruelty.

Prince Kirill Michailow Urossow was brought before the criminal court of Kostroma, in Russia, a short time since, on a charge of having ill-treated his son. The testimony brought to light a horrible state of things.

The Prince, who is entirely given up to drink, has subjected his son by his first marriage—now seventeen years old—to the greatest of indignities from the time of his tenderest childhood up.

The boy has never had a place to sleep in, and has gone about in summer and winter clothed in nothing but a linen shirt and linen trowsers. He has always suffered terribly from hunger and thirst, whilst his besotted father has been in the habit of hurling great pieces of wood at his son, and after having bound him, assaulted him with a knotted whip. The boy's mother, immediately after the birth of the child, was obliged to leave her husband on account of his cruelty, and a short time later died in an hospital. The jury found the accused Prince guilty, and the court condemned him to the forfeiture of all special rights and privileges, and to ten years in Siberia.

The sentence was countermanded by the Imperial Minister of Justice before it was carried into execution.

NOVELTIES.—Music or Maps published, Visiting Cards printed from plates, Books, Cheques, etc., numbered and perforated; also, Charts or Drawing Paper mounted on linen, and the most difficult forms of ruling and book-binding executed with neatness and dispatch. R. T. WILLIAMS, at Messrs. T. N. Hibben & Co.'s, Government street. * *

WE wonder what induces David Green the Clothier, of Government street, to advertise, as everyone is aware that he keeps he best fashionable made clothing store north of San Francisco. * *

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared on his premises on Government street, and sold by all the principal dealers. * *

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. * *

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Brownes' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, 1869, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words "Dr J Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle

A Warning to the Inhabitants of Victoria and Vicinity.

FOR TWO YEARS PAST WE HAVE offered to supply your leading Butchers with meats from one to two cents per pound **less** than they have paid other parties. For **certain reasons** they have **spurned** our offers. These reasons have worked detrimental to your interests as well as ours. We have now made arrangements to supply one of your worthy citizens, Mr. John Parker, with meats for your market, when he cannot purchase a sufficient supply on your Island and at prices to compete with other firms. We think you will all be able to discern a marked difference in the prices which he will ask from those which you have had to pay for the past few years.

We wish to warn all persons who desire meats at **reasonable rates** against entering into **any contract** with other parties until they have learned the prices which Mr. Parker will ask.

Very respectfully,

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine. ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, and is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in theraputics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hœmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectoral Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

Debentures.

Applications will be received at the office of the undersigned until the 21st day of July for the SECOND ISSUE of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par as follows, viz:
$10,000.......... **On 15th May, 1873;**
15,000............**On 1st August, 1873;**
75,000............**On 1st April, 1874;**

Payable in Twenty-five years from the date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. The Debentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Capons will be attached to each Debenture for said Interest, which shall be paid on presentation as they become due.

The Security offered for Repayment of Debentures is as follows:

A preferential Lien will be given on all works to be erected, also upon the land and other property acquired for Water Works purposes, and on the Revenue (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no Engineering difficulties in carrying out the undertaking.

Forms of application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth: he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.
